Company 08448887 | VAT 174018814

We maintain a documented Environmental Management System and are committed to managing the environmental effects of our work responsibly.

## Our commitments

- Comply with applicable environmental law, including the waste duty of care.
- Segregate and manage waste responsibly on every site, under our Waste Management Policy.
- Reduce material waste through accurate measurement, ordering and off-cut management in joinery work.
- Source timber and joinery materials responsibly.
- Reduce transport emissions by consolidating site visits and using local labour.

## Climate commitment

We are a member of the SME Climate Hub and a signatory to the SME Climate Commitment: halve emissions by 2030, reach net zero by 2050 and report progress each year.

## Management and review

Environmental arrangements are overseen at director level and supported by our Environmental Management System Manual and Waste Management Policy. We do not hold ISO 14001 certification.

This policy is reviewed annually and earlier if our activities or relevant requirements change.
